For example, if you subscribe to a newsletter, we may use your email address to send updates or promotional offers.

For example, if you purchase a product, we may share your shipping address with a courier service for delivery purposes.

7. Disclaimers and Limitation of Liability

Disclaimers

We make no warranties regarding the accuracy or completeness of the content on the platform, and we do not guarantee uninterrupted or error-free service.

For example, if the platform experiences downtime due to a technical issue, we do not guarantee that any data you input during that time will be saved.

Limitation of Liability

Our liability is limited to the amount you have paid for the service or product that is the subject of the claim, except in cases of willful misconduct or gross negligence.

8. Termination and Suspension

Termination by User

You may terminate your account at any time by following the platform's account deletion process. Upon termination, you will lose access to the services, and any outstanding balances may still be owed.

The charges for the listing services or the advertising services provided under the contract will be as advertised by us or as agreed with you at the time of the order.

10. Dispute Resolution

Arbitration Agreement

In the event of a dispute, you agree to resolve the issue through binding arbitration, rather than through court proceedings, unless required by law.

For example, if a user feels they were wrongfully charged for a service, they must attempt to resolve the issue through arbitration rather than filing a lawsuit.

Governing Law

These Terms are governed by the laws of [jurisdiction], and any disputes arising from these Terms will be subject to the exclusive jurisdiction of the courts located in the UK.

11. Miscellaneous

Severability

If any provision of these Terms is deemed invalid or unenforceable under applicable law, such invalidity will not affect the enforceability of the remaining provisions. The parties agree to substitute any invalid or unenforceable provision with a valid provision that reflects the intent and purpose of the original provision as closely as possible.

For example, if a court finds a specific provision about the limitation of liability to be unenforceable, the remaining clauses about arbitration, governing law, and termination will remain in effect.

Force Majeure

We are not liable for any failure or delay in performance of our obligations under these Terms if such failure or delay is caused by circumstances beyond our reasonable control, including but not limited to acts of God, war, terrorism, civil unrest, labor disputes, or technological failures.

For example, if a natural disaster prevents us from providing services, users will be notified, and no penalties will be imposed for any service interruptions during this period.

Entire Agreement

These Terms, together with our Privacy Policy, constitute the entire agreement between you and us regarding the use of the platform. Any prior agreements or communications, whether written or oral, are superseded by these Terms.

For example, if there were previous verbal agreements or emails about how a product should be used, those would be overridden by the Terms and Conditions that are posted on the website.

Waiver

Failure to enforce any provision of these Terms does not constitute a waiver of such provision. Any waiver of a provision must be in writing and signed by an authorized representative of the

company.

For example, if we do not immediately enforce a specific term, such as a payment deadline, it does not mean that we waive our right to enforce it in the future.

Transferability

You may not assign or transfer any rights or obligations under these Terms to any third party without our prior written consent. We reserve the right to transfer our rights and obligations to affiliates, subsidiaries, or third-party service providers.

For example, if we enter into a partnership with another company, we may transfer some of the operational responsibilities to them, but you will be notified in advance.
